

Sizing

SAME SIZING AS THE WYEAST WOMEN'S FLANNELS

- A. The final XXL sample was approved! Sizing details were perfect
- B. The women's production can NOT have the full length back stretch gussets like the final sample did. They should only have the smaller gusset like the previous sample

- C. Size XS and S should be more tapered than the larger sizes. We would like to understand how you will accomplish this but the general size chart is okay listed

Need to taper (decrease the width)
at the stomach.
ONLY FOR SIZES XS and S
